

Next Steps

- Refine alternatives based on public comments, engineering and environmental impacts
- Complete Alternative Evaluation considering Purpose and Need for the project in relation to:
 - Agency and public input
 - Alternative refinements
 - Section 4(f) Evaluation - Least Harm Analysis
 - Environmental Justice Impacts
 - Section 106 Effects
 - Overall Environmental Impacts
 - Project Benefits
- Identify a Preferred Alternative based on these refinements and a balance of benefits and consequences
- Determine mitigation methods for inclusion in the Final Environmental Impact Statement (FEIS) based on level of impact and public comments
- All comments received on the DEIS and at this Public Hearing will be responded to in the FEIS
